

## Validation for Vikness website

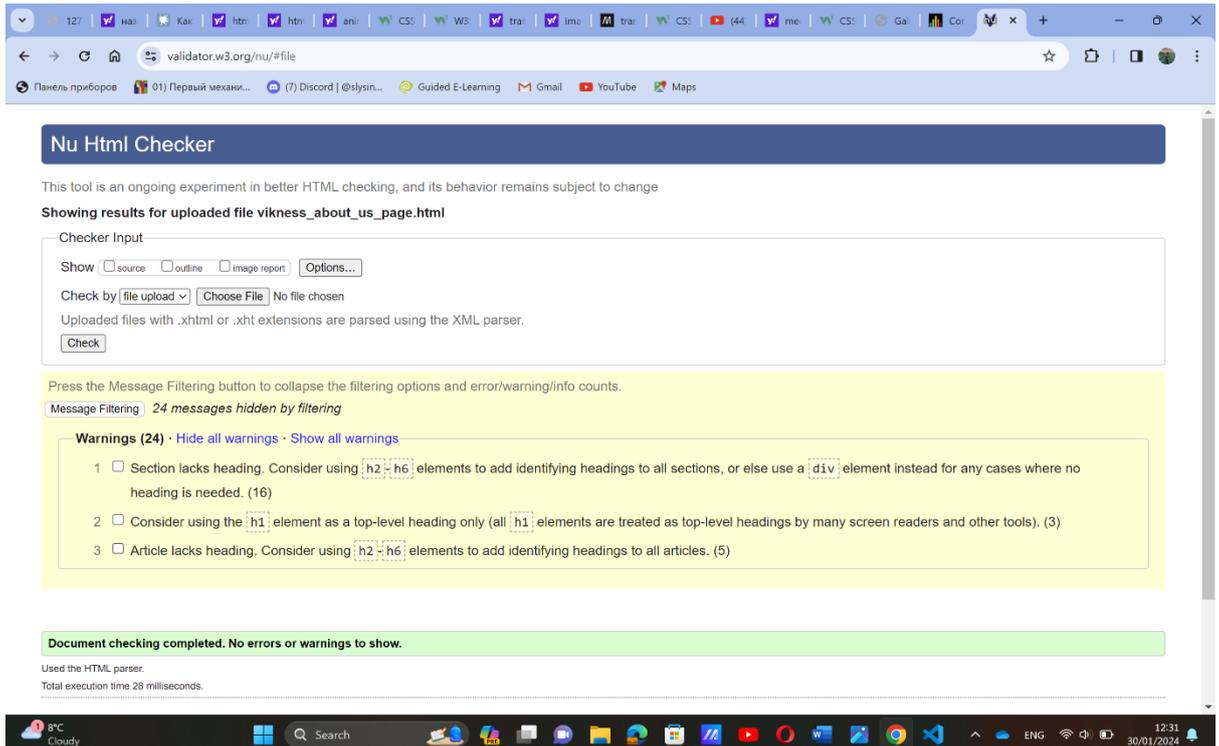

All warnings that you can see all only about using tags “div” and “h2-h6”. I don’t use this tags because I avoided tag “div” and instead of it used tag “section” which has the same definition with “div”. As regards tags “h2-h6”, I didn’t use because I didn’t need them in my webpages. In my case tag “h1” was enough to make the text look good. In addition, I used tags like “article”, “p”.

### 1. vikness\_homepage

The screenshot shows the Nu Html Checker interface. The browser address bar displays 'validator.w3.org/nu/#file'. The page title is 'Nu Html Checker'. Below the title, there is a sub-header 'Showing results for uploaded file vikness\_homepage.html'. The 'Checker Input' section includes options for 'Show' (source, outline, image report) and 'Check by' (file upload, Choose File). A 'Check' button is visible. A yellow message box indicates '17 messages hidden by filtering'. The 'Warnings (17)' section lists three items: 1. Section lacks heading (11), 2. Article lacks heading (4), and 3. Consider using the h1 element as a top-level heading only (2). A green status bar at the bottom states 'Document checking completed. No errors or warnings to show.' The system tray at the bottom shows a temperature of 8°C and the date 30/01/2024.

### 2. vikness\_about\_us page

The screenshot shows the Nu Html Checker interface for the 'vikness\_about\_us\_page.html' file. The browser address bar displays 'validator.w3.org/nu/#file'. The page title is 'Nu Html Checker'. Below the title, there is a sub-header 'Showing results for uploaded file vikness\_about\_us\_page.html'. The 'Checker Input' section includes options for 'Show' (source, outline, image report) and 'Check by' (file upload, Choose File). A 'Check' button is visible. A yellow message box indicates '24 messages hidden by filtering'. The 'Warnings (24)' section lists three items: 1. Section lacks heading (16), 2. Consider using the h1 element as a top-level heading only (3), and 3. Article lacks heading (5). A green status bar at the bottom states 'Document checking completed. No errors or warnings to show.' The system tray at the bottom shows a temperature of 8°C and the date 30/01/2024.

### 3. vikness\_fill\_the\_form page

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file **vikness\_fill\_the\_form.html**

Checker Input

Show  source  outline  image report [Options...](#)

Check by   No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Press the Message Filtering button to collapse the filtering options and error/warning/info counts.

Message Filtering **8 messages hidden by filtering**

**Warnings (8)** · [Hide all warnings](#) · [Show all warnings](#)

- Section lacks heading. Consider using `h2`–`h6` elements to add identifying headings to all sections, or else use a `div` element instead for any cases where no heading is needed. (7)
- Consider using the `h1` element as a top-level heading only (all `h1` elements are treated as top-level headings by many screen readers and other tools).

**Document checking completed. No errors or warnings to show.**

Used the HTML parser.

Total execution time 9 milliseconds.

### 4. vikness\_no\_racism\_no\_fear page

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file **vikness\_no\_racism\_no\_fear.html**

Checker Input

Show  source  outline  image report [Options...](#)

Check by   No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Press the Message Filtering button to collapse the filtering options and error/warning/info counts.

Message Filtering **11 messages hidden by filtering**

**Warnings (11)** · [Hide all warnings](#) · [Show all warnings](#)

- Section lacks heading. Consider using `h2`–`h6` elements to add identifying headings to all sections, or else use a `div` element instead for any cases where no heading is needed. (8)
- Article lacks heading. Consider using `h2`–`h6` elements to add identifying headings to all articles. (3)

**Document checking completed. No errors or warnings to show.**

Used the HTML parser.

Total execution time 9 milliseconds.

## 5. vikness\_gallery

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file vikness\_gallery.html

Checker Input

Show  source  outline  image report

Check by   No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Press the Message Filtering button to collapse the filtering options and error/warning/info counts.

Message Filtering 10 messages hidden by filtering

Warnings (10) · [Hide all warnings](#) · [Show all warnings](#)

- Section lacks heading. Consider using `h2 - h6` elements to add identifying headings to all sections, or else use a `div` element instead for any cases where no heading is needed. (8)
- Article lacks heading. Consider using `h2 - h6` elements to add identifying headings to all articles. (2)

Document checking completed. No errors or warnings to show.

Used the HTML parser.

Total execution time 11 milliseconds.
